Major Innovations

- 1982 “The night the lights went on at Notre Dame Stadium,” Keith Jackson, broadcaster. Made television history by taking sports lighting on the road with Musco Mobile™ lighting systems for broadcast of Notre Dame vs. Michigan prime time college football game
- 1987 Made significant technical advancements in providing affordable light control with Level-8™ and Total Light Control™
- 1991 Introduced the industry’s first sports-lighting system complete from foundation to pole top: Light-Structure System™
- 1992 Revolutionized NASCAR broadcasts by making night racing at the Winston Cup level possible. Mirtran™ systems were first used at Charlotte (now Lowe’s) Motor Speedway and as of 2008, are in place at 16 speedways, including the granddaddy of them all, Daytona International Speedway
- 1996 Introduced cost-effective, quality lighting for dramatic player introductions and special effects in large indoor arenas. ShowLight™ systems were first used at Charlotte Coliseum and are now installed throughout U.S., England, and Ireland
- 1999 Introduced technology to dramatically advance on/off capability and facility management. Control-Link® allows facility managers to control their lighting systems remotely as well as perform critical management reports
- 2005 Revolutionized sports lighting with the introduction of Light-Structure Green™, cutting energy costs in half, reducing spill light by 50%, and eliminating maintenance costs for 25 years.
- 2005 Introduced cost-effective, industry-leading 25 year warranty guaranteeing customers’ lights will perform at design light levels: Constant 25™

Television Credits

ABC, CBS, NBC, TBS, TNN, ESPN, ESPN2, FOX, FoxSports, SkyTV, CBC, and Channel 9 (Australia) have relied on Musco to provide quality lighting to meet broadcast requirements.
